2 x high quality monitor speakers (connected to and operated by the artist's mixer

Artist's mixer) placed high on stands, close left and right, ear level 1 x engineer, taking care of the PA

2 x towels in the dj booth / stage, in case drinks are getting spilled an extra separate subwoofer in the dj booth is preferred

a secured room (with lock) for record bags and personal belongings

// Sound (Booth Monitor)

Monitor system shall be placed at shoulder height or above on each side (or in some clubs mounted directly in front of artist). Never behind nor on the floor. In the event that it is only possible to install the monitors in mono or on one side only, it must be placed on the right side of the Artist. Monitor power must be derived from another power source than that of the house system. The artist must be able to control the volume. In the event that no monitor speaker is present, monitor is not working, or monitor is suffering from feedback and/or distortion and no replacement can be found, Artist will not perform.

// Set Up

A 3cm space should be made left and right side of each turntable.

No stage if possible, best when at same level as the audience, unless it's a large event / festival. The total space needed on a flat surface is 7 ft or 2.5 meters. Please make sure there is enough bass in the DJ booth otherwise you have to add an extra separate subwoofer in the DJ booth. Recordings: Absolutely no recordings of the DJ-set is permitted unless approved by the artist in advance of the event.
